

UNDERGRADUATE SCHOLAR PROGRAM

The Convergence Lab Initiative Scholar program offers specialized training for motivated VCU undergraduate students, and provides experiential learning in the CLI technology areas involving semiconductor research for advancing micro & nano electronics.

Why join our program?

- **Experiential Learning**
Collaborate with research teams and experts while engaging in project-based, experiential learning in CLI technologies.
- **Skill Development**
Develop skills for VCU graduate programs and gain hands-on experience at the Virginia Microelectronics Center.
- **Internships & Financial Benefits**
Access internship opportunities with industry and federal labs, while earning \$15/hour.

Areas of study:

Modeling
& Simulation

Radio Frequency
& Communication

Artificial Intelligence
& Edge Technologies

Electro-Optic
& Infrared
